European LNG Import Volumes & Capacity

Monthly EU LNG Imports by Receiving Region:
12/01/2012 through 10/31/2021

Analysis based on Eurostat, JODI, and IEA Data

@EPRINC_DC

European Union Natural Gas Import Capacity	
European LNG Terminals by Region	MMCF/D
Northwest Europe	
Zeebrugge LNG (BE)	1,479.8
Gate Terminal (I) (NL)	1,278.7
Teesside (GB)	431.0
Isle of Grain (GB)	2,205.7
Milford Haven (Dragon LNG) (GB)	1,018.0
Milford Haven (South Hook) (GB)	2,205.7
Dunkerque LNG Terminal (FR)	1,915.5
Mediterranean Europe	
Montoir de Bretagne (FR)	1,190.6
Fos Cavaou (FR)	1,319.3
Panigaglia (IT)	402.9
Cavarzere (Porto Levante / Adriatic LNG) (IT)	933.2
OLT LNG / Livorno (IT)	531.0
Revythoussa (GR)	436.8
Iberian Peninsula	
Barcelona (ES)	1,746.9
Sagunto (ES)	896.6
Cartagena (ES)	1,209.4
Huelva (ES)	1,209.4
Mugardos (ES)	369.7
Bilbao (ES)	716.7
Sines (PT)	667.5
Northeast Europe	
Świnoujskie Polskie LNG (PL)	483.8
Total LNG Capacity	22,648.3
<i>Analysis based on various European Sources</i>	

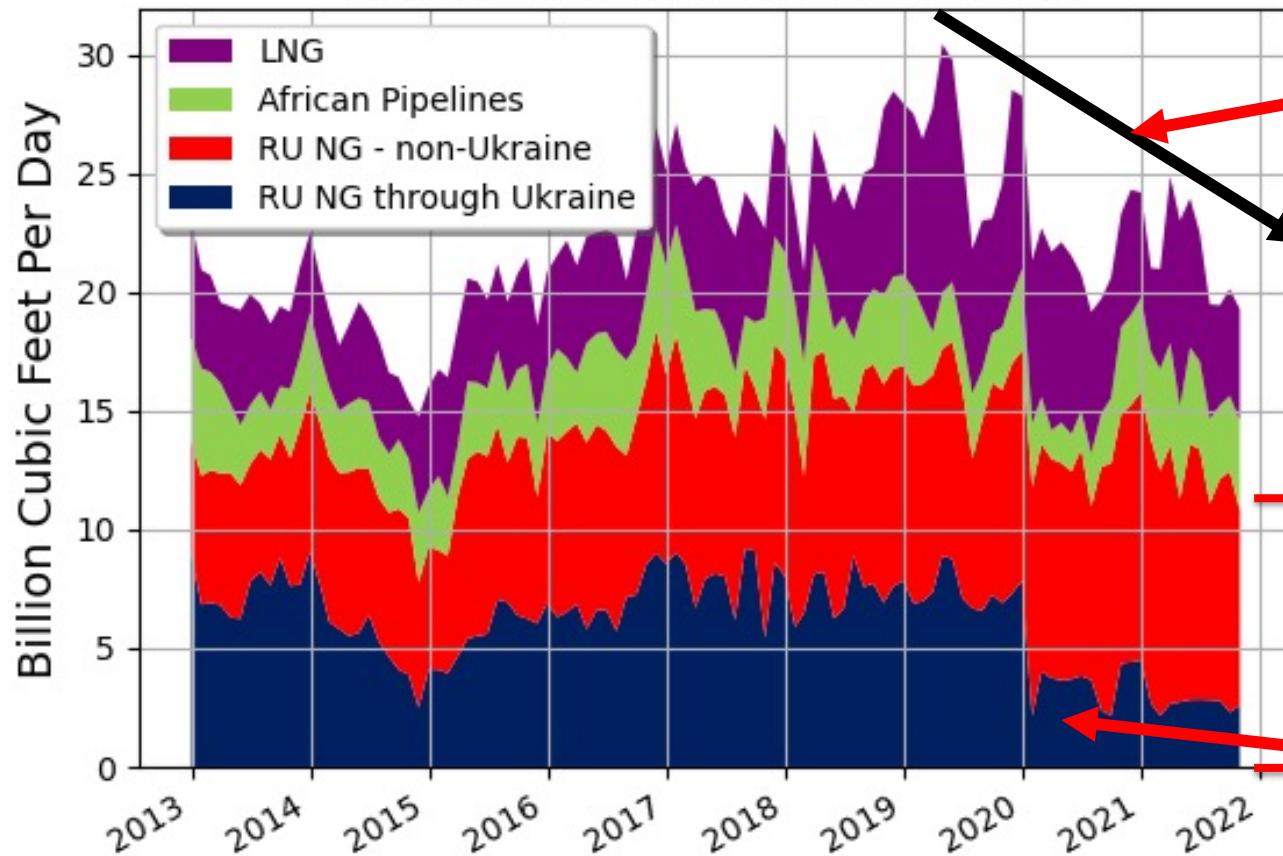

European LNG Import Volumes & Capacity

- European LNG import capacity is estimated at 22.6 billion cubic feet per day (BCF/d).
- European LNG imports historically have ranged between 4 to 6 BCF/d, occasionally rising to 10 BCF/d.
- On average, European LNG imports make up between 20% to 25% of Europe's total natural gas imports.
- In the aggregate, European LNG capacity utilization is about 25%.
