Natural Gas Storage Ahead of Winter 2022-2023

Natural gas storage operators have been aggressive at filling inventories ahead of winter 2022-2023.
Natural Gas Storage Ahead of Winter 2022-2023: But Costly

On an energy basis, both European and East Asian natural gas benchmark prices are well above that of Brent crude oil.

TTF = Dutch pricing location used as European natural gas benchmark
JKM = (Japanese Korea Marker) East Asian natural gas benchmark
